Hardiness Zones: 8 - 11

Possible Problems: Insect: Aphids and thrips

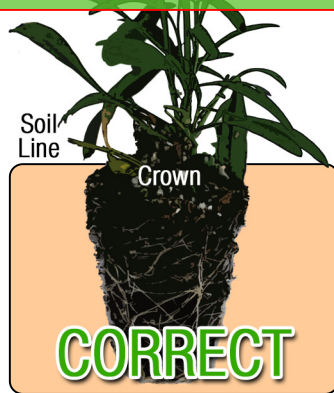

Diseases: Bacterial, fungal

Habit: Shrubby

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

## Description

Broad oval leaves, casually fluted, pointed and ruffled, are held on a mounded, stout plant that has a quiet, dignified presence. Satiny, pewter colored leaves are accented by a deep green heart, held in a snowflake pattern at the center of the leaf. As the leaves ruffle and twist, they hint at the dramatic red back. Another cool growing Begonia for smart growers.
