Hardiness Zones: 10 - 11

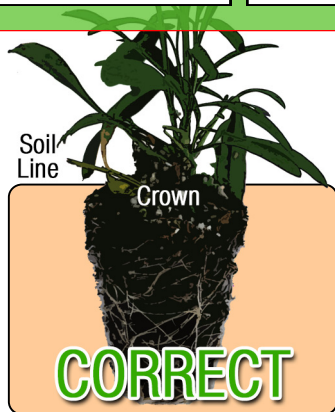

Possible Problems: Insect: Mealy bug if exposed
Diseases: Powdery mildew is possible

Habit: Mounding

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

Dramatic spiraled leaves highlight this hybrid rex begonia. Accenting the spiral is a red brown edge and center contrasting nicely with the deep green leaves. The soft fuzzy texture is from the minute red hairs. Keeps its foliage all winter. Pearl white flowers. Likes humidity.
