Habit: Clumping

Diseases: The plants can have leaf spot and crown rot if kept too moist

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

## Description

This plant has it all - lovely double orange flowers and a medium short, well-branched habit. The anemone type double flowers open with centers that are dark green, then more lime-green, and then orange. First year plants are multi-stemmed. Excellent vigor. Flowers are very large and stems are extra strong. A very exciting Echinacea.
