Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

An exciting addition to TERRA NOVA®'s Echinacea selection! SUNNY DAYS™ Lemon is an exceptionally heavy flowering variety that will blow you away with the sheer number of flowers it produces over the flowering season. Medium, upright plants are smothered in sunny yellow double flowers. The deep, emerald green foliage goes clear to the ground and make this plant really stand out in a crowded Echinacea field. Fragrant and attracts pollinators too.
