Habit: Upright, clumping

Diseases: The plants can have leaf spot and crown rot if kept too moist

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

Absolutely the color of a ripe cantaloupe! Young flowers look like a brown eyed, double Gerbera and are excellent as a cut flower. As the flowers expand, they take on a more "Echinacea-like" look and last and last and last. There is no other Echinacea like this on the market. Ohio State University 2012 trials comment was... "Beautiful flowers; a visitor favorite". One of the three nominated perennials for the 2013 Medal of Excellence Readers' Choice Award of Greenhouse Grower, a US trade magazine.
