Hardiness Zones: 5 - 9

Possible Problems: Insect: Aphids, whitefly possible

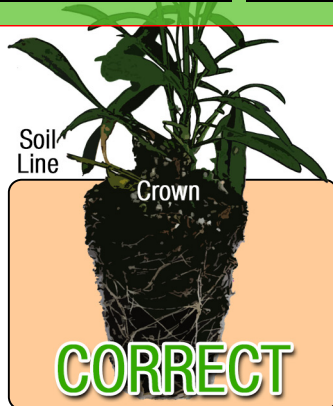

Diseases: Botrytis, mildews possible

Habit: Spreading clump

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

### Description

Profuse, huge, sterile, orange-yellow, semi-double flowers emerge from spring to fall. These 1½" blooms are picoteed with a red edge. One of the most impressive (and early) orange blooming perennials in the spring! Found exploding in the walled city of York, England, this dynamic plant held its regal position in the garden, attracting every eye. Well-drained soil.
