Habit: Mounding

Diseases: Root rot may occur with excessive soil moisture. Powdery mildew, rust, and leaf spots may occur.

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

Brassy, billowy and bold! Casually ruffled and ever changing: peach to coral to toasted copper and rose. Heuchera 'Ginger Peach' is perhaps the fastest growing Heuchera in the garden. It has a very neat habit, without formality, always changing, always interesting. Slow to flower and neat as a pin for years!
