Habit: Mounding

Diseases: Root rot may occur with excessive soil moisture. Powdery mildew, rust, and leaf spots may occur.

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

## Description

With high contrasting, showy dense wands of cerise pink flowers above yellow-lime leaves veiled in white. 'Havana' has a compact form and a reblooming habit which makes it an excellent pot plant. This is a plant that actually prefers shade, so keep it out of the sun. A few hours of morning sun is fine. Short flowering stems will fit most rack systems.
