Habit: Mounding

Diseases: Root rot may occur with excessive soil moisture. Powdery mildew, rust, and leaf spots may occur.

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

## Description

Six inch burgundy leaves literally glow all spring and summer. Multi-seasonal interest begins with bright rose burgundy spring foliage and clean white flowers followed by leaf colors that become white veiled as the season progresses to a final summer color of veiled burgundy and olive tones. The evergreen leaves darken in winter to a rich wine-red. Forms a medium sized mound that is great in the landscape or in containers. Won a first place at the Royal Dutch Flower Bulb Association show in 2008.
