Habit: Mounding

Diseases: Root rot may occur with excessive soil moisture. Powdery mildew, rust, and leaf spots may occur.

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

Sharply ruffled green foliage, with an explosion of white flowers in May-June. Widely touted plants like Heuchera 'June Bride' can't even approach the flower size, purity of white, or the profusion that 'White Spires' affords.
