

Growing Recipe

HEUCHERELLA 'CRACKED ICE'

Approximate Finish Time From Liner

☐ = Minimum ☐ = Maximum

pH: 5.5 - 6.5

Fertilization Recommendations: 100 - 150 PPM

EC: 0.6 - 0.9

Light Levels: Shade to part shade

Water Requirements: Dry moderately between waterings

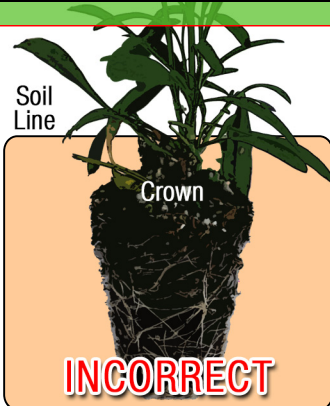

Hardiness Zones: 4 - 9

Possible Problems: Insect: Foliar nematodes may be a problem for gardens in susceptible areas and watch for root weevils.

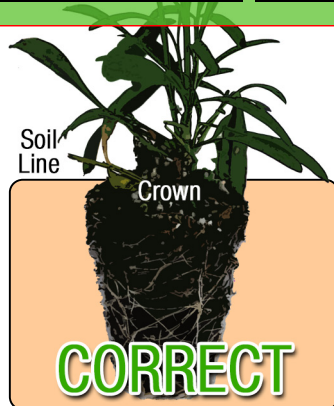

Habit: Mounding

Diseases: Root rot may occur with excessive soil moisture or poor drainage. **Note**: All Heucherella are rust resistant.

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

You don't have to watch your step around this icy beauty. In summer, blue and green tones are punctuated with dramatic veining. In early spring and fall the leaves get a charming silvery-pink overlay. A lovely complement to Heucherella 'Buttered Rum'. Healthy, vigorous, and easy to grow. The compact habit is a natural choice for containers and landscapes.
