

# Growing Recipe

# HEUCHERELLA 'KIMONO'

## Approximate Finish Time From Liner

☐ = Minimum ☐ = Maximum

pH: 5.5 - 6.5

Fertilization Recommendations: 100 - 150 PPM

EC: 0.6 - 0.9

Light Levels: Shade to part shade

Water Requirements: Dry moderately between waterings

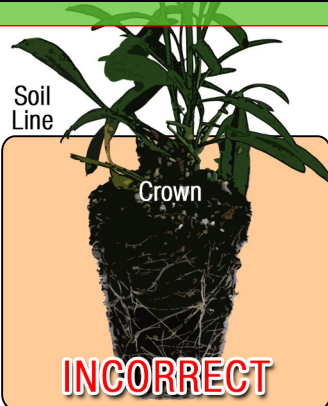

Hardiness Zones: 4 - 9

Possible Problems: Insect: Foliar nematodes may be a problem for gardens in susceptible areas and watch for root weevils.

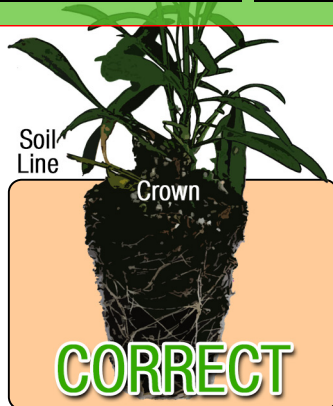

Habit: Mounding

Diseases: Root rot may occur with excessive soil moisture or poor drainage. **Note**: All Heucherella are rust resistant.

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

## Description

An indescribable ornamentation of silvers, purples, and greens. The narrow, deeply dissected foliage with a dark chocolate center stripe is topped by summer blooms of creamy white. Tony Avent of Plant Delights was simply blown away with this plant and reports that 'Kimono' thrives in his southern garden. Killer metallic-rose winter color. Winner of the Medaille d'Argent in France in 2003 and an Award of Garden Merit.
