Hardiness Zones: 4 - 9

Possible Problems: Insect: None

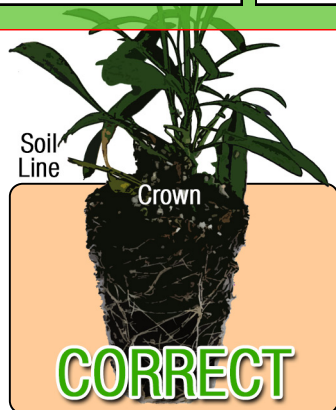

Habit: Clumping

Diseases: Root rot, rust and crown rot are possible

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

A small scale Ornamental Rhubarb with dark green, heart-shaped leaves, veined crimson, showing purple red backs. The new growth in the spring is red. Airy spires of soft pink flowers are 5 ft. high in May and June. A good choice for a bold statement in the perennial garden.
