Diseases: No major problems

Day Length for Flowering: --

Do NOT bury the crown of the plug

Description

Add a little sunshine to your garden with this new spiderwort! Glowing gold foliage creates a lovely foil for the lavender-pink flowers. This vigorous grower is very long blooming and easy to grow. More floriferous and compact than 'Blue and Gold' ('Sweet Kate'). Holds gold color and does not burn in the sun. Place in areas of half to full sun and it will absolutely charm you!
